Friends of Chilama is based in McHenry County. We advocate for the needs of the poor in El Salvador who struggle for the basic necessities for their families. Chilama is a remote farming community without an access road, school, jobs, or local healthcare. It is increasingly more difficult for them to compete in the global market. Your photo entry will help raise funds for a regional healthcare project.

Thanks to The Raue Center for the Arts for their assistance as a drop off point for photos.
